Hello,

Thymol has been updated as exempt from tolerance, and can be disregarded as a presumptive tolerance violation in the PDP-PTV report disseminated on November 1. Please let us know if you have any questions, comments, or concerns on the matter.

Thank you,

Jonathan F. Senn-Carter

Hi Chris,

Thank you for this clarification. We will be sure to modify our records to indicate this exemption for honey.

Best Regards,

Thymol is exempted from tolerance per 180.1240(b). FDA would not consider thymol in honey a presumptive violation.
